

HandyPro

Hand held rotary spreader

The HandyPro is an innovative hand-held spreader that makes the application of fertiliser, granular wetting agents and grass seed effortless and efficient.

The spreader boasts an ergonomic design that prioritises user comfort and reduces hand fatigue. Its lightweight construction coupled with a compact design makes it comfortable to hold for prolonged periods.

The intuitively placed handle adds to the convenience, allowing for one-handed operation that offers greater control and precision.

Key benefits

- Reduced wrist fatigue with clever ergonomic design
- Ideal for seeding and fertilising small areas
- Easy to use
- Spreads fertilisers, seeds and granular wetting agents

Product usage

Type	Spread Width	Hopper capacity	Conventional fertilisers	Controlled release fertilisers	Granular wetting agents	Seed	Top dressing
